PROFESSIONAL EDUCATION DEGREE PROGRAMS

Rise to the next level of competitive expertise with graduate programs available through distance learning. A valuable service of Georgia Tech Professional Education for more than thirty-four years, these programs are open to the public and also to corporate sponsors.

In annual rankings from U.S. News & World Report, Georgia Tech graduate programs consistently rank in the top ten. The proven excellence of Georgia Tech graduate degrees and the convenience of online delivery make them a compelling choice for working professionals.

The following Master of Science degrees are available online:

- **Engineering** - Aerospace Engineering, Electrical and Computer Engineering, Industrial Engineering, Mechanical Engineering, Medical Physics (with Emory University), and Operations Research
- **Computing** – Computer Science, Computational Science and Engineering, and Information Security

Click here (https://pe.gatech.edu/programs) for more information about an online Master of Science degree.

- Professional Master’s in Applied Systems Engineering

Click here (http://www.pmase.gatech.edu) for more information about the Professional Master’s in Applied Systems Engineering (PMASE). This hybrid-format degree offers the convenience that a practicing engineer will appreciate and the skills and knowledge that an employer values.
