BACHELOR OF SCIENCE IN COMPUTER SCIENCE - THREAD: DEVICES & PEOPLE

The Threads™ represent partial paths through the curriculum. Thus, a student weaves a degree from these Threads. Students are not forced to make Thread decisions very early in their academic careers; however, they may if they want. We define the Threads so they are flexible enough to allow for a variety of technical and creative experiences. Threads are coherent enough that students develop computing skills even if their focus shifts as they go along.

The Devices thread is concerned with embedded computational artifacts that interact with people or the physical world. In this thread, one learns how to create and evaluate devices that operate under physical constraints such as size, power, and bandwidth. Examples include PDAs, cell phones, robots, jet engines, and intelligent appliances.

### Wellness
- **APPH 1040** Scientific Foundations of Health 2
- **or APPH 10 The Science of Physical Activity and Health**

### Core A - Essential Skills
- **ENGL 1101** English Composition I 3
- **ENGL 1102** English Composition II 3
- **MATH 1552** Integral Calculus 4

### Core B - Institutional Options
- **CS 1301** Introduction to Computing 1 3

### Core C - Humanities
- **Any HUM** (http://www.catalog.gatech.edu/academics/undergraduate/core-curriculum/core-area-c) 6

### Core D - Science, Math, & Technology
- **PHYS 2211** Introductory Physics I 1 2
- **Lab Science** 2 4
- **MATH 1551** Differential Calculus 2
- **MATH 1554** Linear Algebra 5 4

### Core E - Social Sciences
- Select one of the following: 3
  - **HIST 2111** The United States to 1877
  - **HIST 2112** The United States since 1877
  - **INTA 1200** American Government in Comparative Perspective
  - **POL 1101** Government of the United States
  - **PUBP 3000** American Constitutional Issues
- **PSYC 1101** General Psychology 3
- **Any SS** (http://www.catalog.gatech.edu/academics/undergraduate/core-curriculum/core-area-e) 6

### Core F - Courses Related to Major
- **Lab Science** 2 4
- **CS 1100** Freshman Leap Seminar 1
- **CS 1331** Introduction to Object Oriented Programming 1 3
- **CS 1332** Data Structures and Algorithms for Applications 1 3
- **CS 2050** Introduction to Discrete Mathematics for Computer Science 1 3
- **or CS 2051** Honors - Induction to Discrete Mathematics for Computer Science

### Major Requirements
- **MATH 2550** Introduction to Multivariable Calculus 5 2

#### Bachelor of Science in Computer Science - Thread: Devices & People

### Junior Design Options (Capstone)
- **Junior Design Option** 1, 4

#### Concentration
- **CS 2110** Computer Organization and Programming 1 4
- **CS 2200** Computer Systems and Networks 1 4
- **CS 3251** Computer Networking I 1 3
- **ECE 2031** Digital Design Laboratory 1 2
- **PSYC 2015** Research Methods 1 4

Select one of the following for Building Devices: 4
- **CS 3510** Prototyping Intelligence Appliances
- **ECE 4180** Embedded Systems Design

Select one of the following for Devices in the Real World: 1, 3
- **CS 3630** Introduction to Perception and Robotics
- **CS 4261** Mobile Applications and Services for Converged Networks
- **CS 4605** Mobile and Ubiquitous Computing
- **CS 4476** Introduction to Computer Vision

Select one of the following for Algorithm Fundamentals: 1
- **CS 3240** Languages and Computation
- **CS 3510** Design and Analysis of Algorithms
- **CS 3511** Design and Analysis of Algorithms, Honors

Select one of the following for Social/Behavioral Science for Computing: 1
- **PSYC 2210** Social Psychology
- **PSYC 2760** Human Language Processing
- **PSYC 3040** Sensation and Perception
- **CS 3750** Human Computer Interface Design and Evaluation 1

Select two of the following for Human-Centered Technology: 1, 3
- **CS 3790** Introduction to Cognitive Science
- **CS 4660** Introduction to Educational Technology
- **CS 4460** Introduction to Information Visualization
- **CS 4470** Introduction to User Interface Software
- **CS 4605** Mobile and Ubiquitous Computing
- **CS 4472** Design of Online Communities

Other Required Courses
- **MATH 3012** Honors - Introduction to Discrete Mathematics for Computer Science
- **MATH 3670** Probability and Statistics
- **MATH 3215** Introduction to Probability and Statistics
- **MATH 3651** Probability with Applications
- **CxEE 3770** Statistics and Applications
- **or ISYE 2080** Basic Statistical Methods

Free Electives
Free Electives 6
Total Credit Hours 126

Pass-fail only allowed for Free Electives (max 6 credit hours), CS 1100, and CS 1171 (if required).

1. Minimum grade of C required.
2. Two of three labs MUST be a sequence.
3. If CS 4605 is successfully completed, both requirements are fulfilled, and three credits are added to Free Electives.
4. Junior Design Options are as follows (students must pick one option and may not change):
   - Option 1 - LMC 3432, LMC 3431, CS 3311, CS 3312.
   - Option 2 - ECE VIP courses and LMC 3403.
   - Option 3 - Satisfy Georgia Tech Research Option.

Six credits of the Junior Design option are used as Major Requirements and the overage credits of research/VIP (5 credit hours/2 credit hours) may be used as free electives. Students completing VIP for their junior design requirement will be required to complete at least three semesters of VIP. (VIP 1 + VIP 2 + VIP 3) (for a total of 5 credit hours) + LMC 3403 = 8 hours of VIP credit.

Two credit hours of MATH 1554 may count along with MATH 2550 to give Area F 18 credit hours.

Cooperative Programs

The College of Computing participates in the undergraduate and graduate Cooperative Programs. See links below for further Information:

- Undergraduate Cooperative Plan (http://catalog.gatech.edu/academics/special-academic-programs/experiential-education/center-career-discovery-development)
- Graduate Cooperative Plan (http://catalog.gatech.edu/academics/special-academic-programs/experiential-education/graduate-cooperative-plan)

International Plan

The College of Computing (http://www.cc.gatech.edu) has an approved BS CS International Plan that accommodates the unique requirements of this option discussed in the International Plan section of the catalog (http://www.catalog.gatech.edu/academics/special-academic-programs/international-plan).

However, due to the flexible nature of the Threads curriculum, the International Plan designation may not be available with all of the Thread combinations. Efforts will be made to work with interested students to accommodate their individual circumstances with regard to the International Plan designator for the Bachelor of Science in Computer Science.

Research Option

To complete the Research Option in the College of Computing, students must:

1. Complete at least nine units of undergraduate research
   a. Over at least two, preferably three terms
   b. Research may be for either pay or credit;
2. Write an undergraduate thesis/report of research on their findings;
3. Take
   a. LMC 4701: Undergraduate Research Proposal Writing (taken during the first or second semester of research)
   b. LMC 4702: Undergraduate Research Thesis Writing (taken during the thesis writing semester).

Research Classes

The following classes count toward fulfillment of the Research Option:

<table>
<thead>
<tr>
<th>Research for Credit</th>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>CS 2699</td>
<td>Undergraduate Research (Freshman and Sophomore)</td>
<td>1-12</td>
</tr>
<tr>
<td></td>
<td>CS 4699</td>
<td>Undergraduate Research (Junior and Senior)</td>
<td>1-12</td>
</tr>
<tr>
<td></td>
<td>CS 4980</td>
<td>Research Capstone Project</td>
<td>1-21</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Research for Pay (Audit only)</th>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>CS 2698</td>
<td>Undergraduate Research Assistantship (Freshman and Sophomore)</td>
<td>1-12</td>
</tr>
<tr>
<td></td>
<td>CS 4698</td>
<td>Undergraduate Research Assistantship (Junior and Senior)</td>
<td>1-12</td>
</tr>
</tbody>
</table>

To get credit toward completion of the Research Option for research for pay, students must be registered for the appropriate audit-only, research for pay class (CS 2698 or 4698). If work on research for pay begins after the close of registration and the student has not signed up for the appropriate class, unfortunately it is not possible to get credit toward the Research Option for work that term.

A research project will also fulfill the capstone design requirement if the student registers for CS 4980 for one of the research terms. This is typically done the last semester of research, while taking LMC 4702.

Completion of the Research Option is noted on the student's transcript. For more information, see www.urop.gatech.edu (http://www.urop.gatech.edu).
