Major: 
Anticipated Graduation Date: 

In addition to the guidelines listed below, you are responsible for reviewing and following the general guidelines for minors: http://www.catalog.gatech.edu/academics/minorguide.php

The Biochemistry minor must comprise at least 15 credit hours of approved biochemistry related courses and must comprise CHEM 4511 and CHEM 4512 and at least 6 credit hours upper-division coursework (numbered 3000 or above).

No more than 3 semester hours of Special Topics courses may be used. No more than 3 semester hours of Undergraduate Research may be used. No more than 3 semester hours of Special Problems courses may be used.

It is the major advisor’s responsibility to verify that students are not using any courses required by name and number for their major, that they are not using any core area A-E courses (including humanities and social sciences), and that they are not using any courses for more than one minor or certificate. Free electives and technical electives may be used towards minors.

List the courses completed for the requested minor:

MINOR DEGREE PROGRAM

The Biochemistry minor must comprise at least 15 credit hours of approved biochemistry related courses and must comprise CHEM 4511 and CHEM 4512 and at least 6 credit hours upper-division coursework (numbered 3000 or above)

1) Courses at the 1000 level may NOT be used toward the minor.
2) A maximum of 3 credit hours of Special Topics (in biochemistry) courses may be included in the minimum 15 credit hours of a minor program.
3) A maximum of 3 credit hours of CHEM 4699 (Independent Research) may be used toward the minor.
4) All courses counting toward the minor must be completed with an overall average GPA of at least 2.0. A minimum of six of these credit hours must be taken in residence at Georgia Tech.
5) All courses counting toward the minor must be completed with on a letter grade basis.
6) Courses required by name and number and/or used to satisfy Core Areas A through E in a student’s major degree program may not be used in satisfying the course requirements for this minor. However, courses used in a minor also may be used to fulfill free electives or technical electives.

The 15 credit hours applied to the Biochemistry Minor must be comprised of CHEM 4511 and 4512 and 9 hours of any combination of the courses (3 semester hour each) listed below and still meet requirements 1-6 above. If CHEM 2312 is a major degree requirement (item 6 above), one of the following approved chemistry courses may be substituted.

- CHEM 2312 Organic Chemistry II (*pre-requisite to CHEM 4511)
- CHEM 3411 Physical Chemistry I (**pre-requisite to CHEM 4521)
- CHEM 4511*/6501 Biochemistry I
- CHEM 4512/6502 Biochemistry II
- CHEM 4521** Biophysical chemistry
- CHEM 4581 Biochemistry Lab I
- CHEM 4582 Biochemistry Lab II
- CHEM 4699 Independent Research
- CHEM 4803 Special Topics (with approval of Director, Undergraduate Studies)
- CHEM 65XX Graduate level biochemistry courses
- CHEM 85XX Graduate level biochemistry courses
