In addition to the courses listed here, there are other courses offered less regularly—for example, Special Topics and Undergraduate Research classes—that may count toward the minor. The SST adviser should be consulted for guidance. Three hours taken outside of SST courses may be counted toward the minor, with the approval of the SST minor advisor. All courses must be taken on a letter-grade basis and must be completed with an overall grade-point average of 2.0.

Courses required by name and number and/or used to satisfy Core Areas A through E in a student’s major degree program may not be used in satisfying the course requirements for a minor. No more than 3 semester hours of Special Topics courses may be used. No more than 3 semester hours of Undergraduate Research may be used. No more than 3 semester hours of Special Problems courses may be used.

It is the major advisor’s responsibility to verify that students are not using any courses required by name and number for their major, that they are not using any core area A-E courses (including humanities and social sciences), and that they are not using any courses for more than one minor or certificate. Free electives and technical electives may be used towards minors.
